Published March 28, 2013 | By [siteadmin](#)

## **Controversial UFO "Sirius" Documentary**

**to be released theatrically April 24**

**Directed by Emmy Award winning Amardeep Kaleka,**

**the groundbreaking film is inspired by the work**

**of Dr. Steven Greer and the Disclosure Project**

**and is narrated by actor Thomas Jane**

"Sirius" from Emmy Award winning director Amardeep Kaleka ("*Neverending Light*"), producer J.D Seraphine and narrated by actor Thomas Jane ("*Hung*") will have a gala celebrity premiere on April 22 in Hollywood followed by a limited national theatrical release on April 24.

The explosive documentary deals with the subject of UFO disclosure and clean energy. "Sirius" was also one of the most successful crowd funding initiatives ever produced. The film includes Government and Military witnesses to the UFO secrecy, explains the connection to Free Energy and provides the vision of Contact with ET Civilizations as witnessed by the CE-5 contact teams. Never before has this wealth of information and footage been shown to the public.

"This really is the greatest story never told" says Dr. Greer, "Once people understand that classified projects have figured out how UFO's operate, they will realize we no longer need oil, coal and nuclear power. This is the truth that has driven the secrecy."

According to Thomas Jane, "The Sirius documentary is a powerful and important film that I encourage everyone to watch with an open mind as it truly speaks to the heart of the people who, like me, are probably okay with the government keeping secrets from its people in the name of national security, but is not okay with a secret government."

"Given the possibility that there was something profound to explore here – something that could potentially open minds to new realms and new possibilities – we seized the opportunity to take on this project. For every story we told, we found hundreds of others. Our goal is to initiate our audience on the same journey – to open their minds and inspire them to search – and freely consider that there is more in this world than we may ever know" adds director Kaleka.
